📍 Mumbai, Maharashtra – 401501

Summary

Solution consultant and Business Analyst with 4+ years of experience delivering digital transformation and procurement modernization initiatives across SaaS and financial services environments. Strong expertise in Source-to-Pay (S2P) and Procure-to-Pay (P2P) implementations, BPM and RPA-led process automation, and ERP and banking system integrations. Proven ability to lead stakeholder-driven solution design, manage Agile delivery, and support PMO governance to achieve measurable improvements in operational efficiency, compliance, and cost control. Recognized for driving accelerated go-lives, high user adoption, and sustainable value realization.

Work History

Senior Business Analyst – Expensing

Dec 2024 – Current

- Led **end-to-end SaaS digital transformation initiatives** for enterprise clients, conducting stakeholder workshops across Finance, Procurement, and IT to assess **As-Is processes** and design **To-Be S2P and P2P solutions**, delivering up to **80% reduction in manual effort**.
- Acted as a **Technology and Business Solution Consultant**, translating business requirements into **scalable functional and technical designs**, including BRDs, FRDs, user stories, SDDs, and integration requirement documents.
- Partnered with senior stakeholders to analyze **procurement, finance, and payment workflows**, perform gap analysis, and recommend **best-practice process improvements** aligned with digital and operating model transformation objectives.
- Designed and delivered **ERP and third-party system integrations** (SAP, SUN Systems, HRMS platforms, Core Banking Systems), enabling **secure, real-time enterprise data integration**.
- Configured **BPM and workflow automation solutions**, including approval hierarchies, business rules, validations, RBAC, and exception handling, aligned with governance and compliance frameworks.
- Led **UAT planning and execution**, including test strategy definition, defect triage, and go-live sign-offs, ensuring successful production deployments.
- Drove **client onboarding and change management**, delivering training, SOPs, and adoption playbooks, and acted as the primary **post-go-live advisory contact** supporting continuous improvement and roadmap alignment.

Business Analyst – Expensing

Oct 2023 – Nov 2024

- Delivered **end-to-end product walkthroughs** of the Source-to-Pay (S2P) module to client stakeholders, enabling clear understanding of system capabilities and transformation outcomes.
- Mapped **As-Is to To-Be procurement processes**, aligning client operations with standard Procure-to-Pay (P2P) and S2P best practices.
- Designed **spend analysis views and reports** to identify procurement leakage and cost optimization opportunities at a cost-center level.
- Supported **end-to-end P2P and S2P implementations** across configuration, testing, and deployment phases to ensure smooth solution rollout.
- Provided **go-live and post-go-live support**, enabling digital adoption and stabilization during early production usage.
- Conducted **market and product research** to identify new feature requirements and documented enhancements through FRDs and functional documentation for product roadmap inclusion.

Project Associate – Transerve Advisors

Dec 2019 – May 2021

- Supported **operations-led process transformation** initiatives by performing **end-to-end process analysis** of core banking workflows, identifying manual dependencies and improvement opportunities.
- Led **Business Process Management (BPM)** activities by documenting **as-is / to-be process maps**, highlighting efficiency gaps, risk points, and automation potential aligned with operational KPIs.
- Translated business and operations requirements into **RPA-ready process documentation** (PDDs and functional inputs), enabling conversion of manual banking processes into automated workflows.

- Supported the **RPA delivery lifecycle**, including use-case assessment, feasibility analysis, **UAT validation**, and post-deployment support to ensure process accuracy and control effectiveness.
- Acted as a **liaison between operations stakeholders and RPA technology teams**, managing requirement clarifications, change impacts, and delivery coordination to support timely automation rollout.

Project Associate – Altius Infoway

May 2019 – Nov 2019

- Led **business requirement elicitation and analysis** for web, mobile, and CMS-based digital solutions, collaborating with clients, UX teams, and developers to translate business needs into **functional and non-functional requirements**.
- Authored and maintained **BRDs, FRDs, and user stories**, ensuring **clear scope definition, requirement traceability**, and alignment between business objectives and technical delivery.
- Conducted **as-is / to-be process analysis** to identify **process gaps** and **digital optimization opportunities**, supporting solution design and implementation decisions.
- Supported **User Acceptance Testing (UAT)** by defining **test scenarios**, validating functional outcomes, and managing **defect resolution** prior to client sign-off.
- Acted as a **client-facing liaison**, managing **change requests, impact assessments**, and delivery communications to ensure **on-time, within-scope delivery**.

Skills

- | | | |
|--------------------------|------------------------------------|---------------------------|
